

Start With an Amazing **Finish**™

Maintain the Beauty of Your  
Hardwood Floors with Ease

Bona.com

**Bona**®

# Easy Tips to Keep Your Hardwood Floors Beautiful:

- Use natural rubber doormats at entrances to keep out dirt and grit. Avoid synthetic rubber – it can stain or etch the floor.
- Install felt floor protectors on tables and chairs used on hardwood floors.
- Wipe up any excess moisture as soon as possible (tracked-in water or spills). Never wet mop a hardwood floor – it adds too much moisture to the floor, potentially damaging the hardwood.
- Avoid sliding heavy items such as fixtures or furniture across the floor.
- Vacuum and clean doormats daily.

**Enjoy years of beauty by following Bona's simple hardwood floor care and maintenance system.**

## A Daily Clean

Our cleaning formulations are residue-free, non-dulling, and fast drying. They clean effectively and safely so you can just relax and enjoy.

1. Remove all dust, grit and other abrasive particles with a daily dust mop.
2. Clean floors with your choice of effective Bona floor cleaner, specially formulated to safely lift and remove remaining dust, dirt & grime for a complete clean:

- **Bona Hardwood Floor Cleaner™**  
Original Formula, cleans to reveal natural shine
- **Bona Free & Simple® Hardwood Floor Cleaner**  
Hypoallergenic Formula, free of dyes and scents
- **Bona PowerPlus® Hardwood Floor Cleaner**  
Oxygenated Formula, extra power added, best if used with the Deep Clean Pad

## A Timeless Shine

Bona created high-quality polishes that add a durable protective layer, fill in micro-scratches, even out the appearance of high traffic areas, and provide a beautiful shine.

- Polish your floors every 1 to 4 months, depending on traffic and age of floor
- Use a Bona Microfiber Cleaning Pad (designated solely for polish application).

# A Lifetime of Protection

## Professional Hardwood Floor Treatments

### Bona: **Revive**

**Consider it a spa day for your wood floors.**

**Every year\***

**Purpose:** Removes dirt, grime and build-up from the floor.

**Process:** An initial dry mopping is done to remove major debris and particles. Then, a Bona Power Scrubber is used to provide a powerful deep clean and extraction of dirt and grime.

**Benefits:**

- Quick and easy – no need to vacate the home
- Affordable – cost effective way to rejuvenate your floors
- Safe – removes dirt, grime and build-up with no harsh chemicals

**Time:** Floors will be ready in a few hours.

### Bona: **Restore**

**A personal trainer for your lackluster floors.**

**As needed\***

**Purpose:** Replaces the finish of your floor, the main layer of protection.

**Process:** Floor is deep cleaned, rinsed and prepped. A new coat of finish is then applied.

**Benefits:**

- Removes dirt and grime
- Fills in surface scratches and creates a fresh protective wear layer
- Restores sheen and luster of floor

**Time:** Floors will be ready overnight.

### Bona: **Refinish**

**The makeover your floor has been begging for.**

**As needed\***

**Purpose:** Completely renovate your floors.

**Process:** Floor is sanded down to the bare wood. A sealer or stain is applied, as well as a new layer of finish.

**Benefits:**

- Opportunity for design update
- Dustless and water-based for healthier indoor air
- Repairs all gouges, damage, discoloration and fading

**Time:** Floors will be ready in 2-4 days.

\*Treatment program selection dependent on condition of flooring surface, foot traffic, and expectations of consumer. Please contact a Bona Certified Craftsman for an assessment to determine the right program for your pre-finished hardwood floor.

Trust Bona's Certified Craftsman® for your pre-finished hardwood floor installation and our complete line of floorcare products to keep your floor looking simply beautiful.
